

# The 3x3 Plan for Troubleshooting!

## For the HORSE

### 1. What needs to Happen?

What is the SOURCE of the problem vs. the symptom(s)?

---

---

### 2. Where?

Where on the pattern is the problem occurring, AND where on the pattern will the solution take place, or BEGIN to take place? Be specific – how many FEET from the barrel, etc. (mark it out)!

---

---

### 3. When?

What will your horse need to do, or HOW will he need to travel/use himself differently in each situation below?

a. In a run

---

---

b. In slow work

---

---

c. In general riding

---

---

## For the RIDER

### 1. What needs to Happen?

As a rider, what could you be doing that is contributing to the problem? What must be done to correct this?

---

---

### 2. Where?

Where exactly on the pattern could you ride/communicate better?

---

---

### 3. When?

What will you be more conscious of and/or how to you plan to ride differently in each of the situations listed below?

d. In a run

---

---

e. In slow work

---

---

f. In general riding

---

---
